

Hosting Options To Fit Your Business Needs

EFI™ Digital StoreFront® comes in two deployment options to fit your technical and budgetary needs.

EFI Digital StoreFront

EFI Digital StoreFront is a scalable, Web-To-Print eCommerce platform that helps you capture more print work, reduce the number of touch points per job and achieve a higher return on investment.

- Digital StoreFront is designed to scale in transaction volume from 100s of orders per month to 1,000,000s of orders per year
- With customers ranging from small commercial printers (1 location) to retail organizations (over 1,500 locations) to in-plants (over 190 facilities), Digital StoreFront has the architecture to adapt to the scale of your company

Self-Hosted

If you want to incorporate Digital StoreFront into your existing IT architecture, the self-hosted deployment option (on premise) enables you retain full control of your Web application on your network, behind the firewall.

EFI-Hosted (SaaS)

A cloud-based (SaaS) deployment model hosted by EFI is a compelling option with a convenient pay-as-you-go model.

- The EFI experts will continuously monitor performance and keep your site running 24/7
- The team also takes care of maintaining the server, installing upgrades and upscaling when needed

Digital StoreFront Deployment Options At A Glance

CONTROL	Self-Hosted	EFI-Hosted
Control	<p>Hosting Digital StoreFront gives you full control over your solution.</p> <p>You can decide when to upgrade and, as your business grows, you can add additional hardware, bandwidth, disk space and processing power.</p>	<p>With EFI hosting Digital StoreFront you can concentrate on doing what you do best - providing the best print offerings to your customer.</p> <p>You don't have to hire IT people to manage and maintain Digital StoreFront – EFI makes sure everything runs like clockwork.</p>
SECURITY	Self-Hosted	EFI-Hosted
Security	<p>If your company has strict IT restrictions regarding data storage and transferring data outside your firewall, EFI allows you to configure Digital StoreFront in exactly the way that maintains your existing security standards.</p>	<p>There's no need to worry about security. EFI ensures the highest possible security, access and uptime to your Digital StoreFront application and data.</p>
TIME TO MARKET	Self-Hosted	EFI-Hosted
Time To Market	<p>For companies who want to keep their print platform consistent with the company's existing services, Digital StoreFront can be adopted in a timeframe suitable to your company.</p>	<p>For companies who need to be up and running with a digital offering for their customers, EFI provides a quick and easy method for adopting a Web enabled e-commerce platform.</p>
TECHNOLOGY	Self-Hosted	EFI-Hosted
Existing Technology	<p>If you already have SQL database licensing in place and would like to leverage that investment, hosting Digital StoreFront is the best option for you.</p>	<p>Companies who opt for EFI to host Digital StoreFront may require additional purchase of Microsoft® SQL database and local database expertise.</p>

EFI fuels success.

From Fiery to superwide inkjet, from the lowest cost per label to the most automated business processes, EFI has everything your company needs to succeed. Visit www.efi.com or call 800-875-7117 for more information.
